JEFFER DORIA

Full Stack Developer | Systems Development Technologist

Valledupar, Cesar, Colombia

Email: dodevp10@gmail.com | Tel: 3002029380

SUMMARY

I am a Systems Development Technologist and Systems Engineering student passionate about building scalable, efficient, and user-centered applications. I specialize in PHP, Laravel, C#, .NET, SQL, JavaScript, and React, creating solutions that simplify processes and deliver real value to users.

I quickly understand business needs, adapt to new technologies, and maintain a strong focus on clean, maintainable code. I'm seeking opportunities to contribute to a professional engineering team where I can continue growing and building high-impact software.

TECHNICAL SKILLS

Backend: PHP, Laravel, C#, .NET, .NET Core, Entity Framework, REST APIs, JWT
Frontend: React, JavaScript, HTML5, CSS3, Bootstrap, Tailwind
Databases: SQL Server, MySQL
Cloud & DevOps: GitHub, GitLab, Hosting (cPanel, VPS), Docker (basic)
Tools: Git, Postman, Figma
Other: Problem-solving, teamwork, fast learning

WORK HISTORY

IT Support & Junior Developer | Health Sector Company | 2022
• Supported internal systems and databases, ensuring software reliability and continuity.
• Developed automation scripts and assisted backend improvements using C# and SQL Server.
• Performed troubleshooting, software updates, and end-user support.
• Collaborated on minor feature updates for internal applications.

PROJECTS

Gym Web – Laravel + Tailwind
• Full gym management system with payments, member control, and activity tracking.
• Designed REST APIs and interactive UI components.
• Reduced manual errors through digitalization.

Gym Desktop – C# + .NET + SQL Server
• Desktop application for gym operations.
• CRUD features, roles, and validation.
• Optimized SQL queries for better performance.

Amazon Prime Video Clone – Bootstrap + CSS
• Functional UI clone with hero banners, carousels, and dynamic sections.
• Applied component-based architecture and reusable UI patterns.

EDUCATION

UNAD – Universidad Nacional Abierta y a Distancia
Systems Engineering | Ongoing

SENA
Technologist in Systems Development | 2023
Technician in Systems | 2017
